Betreff: Frankfurt, Germany entry from Ulaanbaatar Mongolia

Dear Federal Ministry of the Interior, Building and Home Affairs,

My name is Khulan Batbayar and I am a Mongolian citizen. I am studying a Ph.D. program in the Erasmus Mundus Joint Doctorate program in Distributed Computing in Universitat Politècnica de Catalunya, Spain, and Université Catholique de Louvain, Belgium. I have a long term residence permit from both of the countries Spain valid through 3rd October 2020 and Belgium 30 October 2020.

I am a single mother and I have a 7-year-old son with me. He has a residence permit from Spain valid through 3rd October 2020.

I had a research internship in the United States from February 2020 to August 2020 at the George Washington University through Next Generation Internet Explorer (EU funded) program. For this reason, my son stayed with my parents in Mongolia during my period of the internship from 20th December 2019 till now.

I am back in Belgium on 29th July 2020 to finish my Ph.D. program and trying to get my son back to Europe with me. There is a special flight coming from Mongolia to Frankfurt Germany and I have a trusted person with authorized notary documents bringing my son to Frankfurt, Germany on 21 August 2020. I will meet with them in Frankfurt and take my son to Belgium with me on the same day by train. I have a train ticket on 21st August from Brussels to Frankfurt airport and same-day return ticket.

Is it allowed for him to travel to Germany and meet with me in Frankfurt, Germany to further go to Belgium?
If so, would the Federal Ministry provide a letter stating that he could enter Germany?
If not, what is the best situation in this case?

I have asked from the Spanish authorities if he could enter to EU zone with the residence permit card and they replied with a proper valid residence permit card, he can enter EU zone without any problem.

I have attached my residence permits and my son's residence permit in the email. I apologize for the photos as they are not scanned but taken by the phone camera.

With regards,

Khulan Batbayar
